East Side People Recognize Tactics that Were Pursued On the Eve of Election Two Years Ago-Plant Was Shut Down Until Voting Was Over, Then It Reopened, and East Side Has Been Obliged to Smell It

Very angry were the people of the bast Side, to-day, especially those who live in the Ninth and Twelfth districts, which are well within the districts, which are well within the districts, which are well within the districts are no new thing to us. It is that after several years of fighting, we are no nearer abating the evil than we ever have been.

The citizens who have fought so long, and so zealously, to abate a nuisance which has made them ill, and which has seriously threatened the value of their property, see in this program a mere renewal of the cunning factics that were used, just prior to the city election two years ago, when the authorities, for election purposes only, closed down the plant for a few days, only to permit it to reserved and the East Side to struggle poses only, closed down the plant for a few days, only to permit it to re-open, and the East Side to struggle along as it had then done for some with the same smells, so sickyears, with the same smells, so sick-ening that they cause frequent nau-sea to those who are compelled to breathe the air of the neighborhoods where they exist.

Said an East Side citizen, who has taken a prominent part in the effort to abate the garbage nuisance: "We are tired of this thing. It is not that we have been deceived with semi-of-ficial information, that an order has

GULF STAYS IN MIDDLE

The numbers of the freight cars which are bringing the grooved rails to this city have been received at the freight offices and the cars may arrive nytime in the next three or four days if they do not get sidetracked on the Names of Purchasers With

As soon as the rails arrive the railroad company will be ready to proceed with the work of laving them in Main Street between Congress street and Fast Washington evenue. Supt. Chapman who was in New Haven yesterday in consultation with the officials of the company stated this morning that the company was ready to go schead with the contemplated improvements as soon as the city began its part of the work. There will be no appeal from the decision of the Rail-

road Commissioners.

The grooved rails will be laid upon 9 ft. centers and the company will abandon its effort to secure 10 ft. centers common council had abandon its effort to secure 10 ft. centers. As the common council had turned down the ten foot center proposition of the company and a 9 ft. 8 in. center proposition by the permanent paving commission and the railroad commission denied the application there was nothing left for the railroad to do but carry the fight to the courts, or yield to the city.

Several of the aldermen assert that the reason the company will not ap-

the reason the company will not appeal is that it realizes that it would have no standing in court, because it is a well established fact that the courts will not intervene to regulate the purely administrative functions of the Railroad Commissioners. The permanent paving commission has informed the Connecticut Co, that it will not take up the paving of Main

street between Congress street and Gilbert street this year. This will give the company emple time to reopen its fight for 10 ft. centers in the common council and will probably have a number of new aldermen to deal with after the next election.

the next election.

It will be at least two weeks before the United States Wood Preserving Co. will be able to ship the blocks to this city. Representative Reed, of the company, said a few weeks ago, that the company's plant was taxed to its full capacity and that if Bridgeport did not say quickly when it wanted its blocks, that it might be late in October before they could have them. The paving commission is now confronted with the dilemma of not knowing with the dilemma of not knowing when it can get the blocks shipped here.

The reason given for the improvement of the reason given for the improvement of the control of th

ment of the roadway north of Con-gress street first is that it is in worse gress street first is that it is in condition than the section of the street condition than the section of the street below Congress street. It was pro-posed to lay a new pavement in Main street during the first year of Mayor Lee's administration, but he defeated all such efforts until the legislature met and his paving commission was

created.

Persons are not lacking who believe that the actual reason behind the delay in paving the portion of Main street between Congress street and Gilbert street is to give the company a chance to fight for ten foot centers before a new board of aldermen.

REPLIES TO TAFT SPEECH Lee's Friends in Ninth Cast Senator Does Not Propose to

Be Read Out of Republican Party by President

LOCKS HORNS

ON THE TARIFF

Aldrich Bill

Ready to Go Before People and Let Them Decide Issue With President

(Special from Unted Press.) Macison, Wis., Sept. 24.-United States Senator La Follette does not propose to be read out of the Republican party by President Taft or any other man. This is his reply to the President's Winona speech on tariff in which Mr. Taft scored the Republican "insurgents" for their action on the Payne-Aldrich bill. The reply is contained in the leading editorial in this week's issue of LaFollette's Weekly Magazine and is sum-

med up in the following words:

"The statement of the President is featured in the press of the country as an attempt to read out of the party those Republican Senators and Repre-sentatives who voted against the tariff bill. That cannot be done. No insentatives who voted against the tarm bill. That cannot be done. No individual has the power to read a representative out of his party. That power rests solely with the voters who selected him as their party representative. Nor can even the President of the United States decide for the American people whether or not the tariff law is genuine or counterfeit. He cannot decide that even for the Republican party. The people have the divine right of deciding that question for themselves. They will do so in their own way, at their own time and upon the facts."

The editorial refers to President Taft's statement when he signed the tariff bill, that it was "a sincere effort to make a downward revision and to comply with the promises of the platform."

The editorial adds: "The President's

was, in accordance with the promises of the Republican party, impossible." The editorial then refers to the analysis of the tariff charges and adds: "Tris analysis our ports to measure the importance of tariff changes by the 'consumption value' of the commodities affected. This was done to make answer to the compilations of the Bureau of Statistics of the Department of Computers and Labor showing the Bureau of Statistics of the Department of Comfinerce and Labor showing the tariff increase * * * Nobody then or since has come forward to claim credit for this analysis which Mr. Payne caused to be printed in the Record. The data on which it was based has never been disclosed. * * *.

The President is reported to have said. Main and Bank streets for the past 46 years by C. Russell & Co., will pass tion with the party representative whether he shall be maintained in the

party solely for accomplishing its chief purpose or whether the depart-ure from principle in the bill, as he abandoning principle or abandoning his party. Storm Center of Republican Warfare Continues in East Side

Nothing has happened in the flerce Republican warfare which is waging in the city between the insurgents and the regulars to remove the storm center from the Ninth district. That the Republican machine recognizes that the strategic point in the campaign is in this district is indicated by the promptness with which the regulars got their delegate ticket into the field. Today, and it is two or three weeks in advance of the primaries, one of these ballots is probably in the pos-session of every person who can be expected to vote it and in the hands of many persons who will not vote it. Policemen have the little white slips of paper, firemen have them, employes in the public works department have them. The insurgents, who will se-cure the nomination of Charles H. Morris, if they can, have not sa far issued a ballot, although the delega-tion has been named.

One of the tragedies of the situation, so far at least as its victim is concerned, is the situation of former Town Clerk James N. Booth, who desires to be renominated to the same office. Booth had picked Mayor Lee as the winner of the nomination for Mayor and as the man who would probably control the Republican convention and sought an alliance with him. But in the meantime it began to look as if the Morris Republicans might control the convention and might control the convention and Booth, it is alleged, went into negotiations with them to arrange a dicker in the Ninth. The Lee men, having no time to linger, allied themselves

with B. J. Cooney.

In the meantime the Morris men had learned of certain conversations alleged to have taken place between Mayor Lee and the former Town Clerk. They inquired of Mr. Booth and found his explanation not quite. for themselves. They will do so in their own way, at their own time and upon the facts."

The editorial refers to President Tatt's statement when he signed the tariff bill, that it was "a sincere effort to make a downward revision and to comply with the promises of the platform."

The editorial adds: "The President's second declaration was made in his speech at Winona. It is stronger than his first. He declares the law is more than an 'effort': it is a fulfillment of the promises of downward revision.

* * * The President comes with this declaration to the support of Congressman Tawney * * * who has been not notoriously opposed to downward revision—Tawney who stood pat'. He comes to the support of Tawney and those like him when this was, in accordance with the promises of the Republican party impossible."

Bayor Lee and the former Town Clerk. They inquired of Mr. Booth and found his explanation not quite candid. In other words, whether or not an injustice was done to the former Town Clerk they concluded that he had so stated what had occurred as to convey to them the impression that he had not been dickering with Lee. Thereupon all negotiations with the Booth faction were suspended, and unless a change occurs the former Town Clerk will be obliged to go it alone.

The earlier indications pointed to four delegate tickets in the Ninth, two pledged to Lee and differing in the respect that one group of delegates to would be favorable to Cooney for Town Clerk, and the other to Booth; and two Morris tickets, differing in the same way.

But it is now apparent that there

Republicans who are frankly allied with the machine are beginning to admit that the prospects of party succhief purpose or whether the departure from principle in the bill, as he regards it, is so extreme that he must in conscience abandon the party.'

President Has Exciting Time in Opening of Tunnel that Diverts River

Sheriff Engages in Fist Fight and Revolver is Flourished Over Heads of Crowd.

(Special from United Press.) Provo, Utah, Sept. 24.-President Taft is here to-day in search of new adventures after witnessing a fist fight which ended in gun play, an impromptu feature of the program at the mouth of the Gunnison Tunnel late yesterday. A fight which started on the stand above the tunnel's mouth where Mr. Taft turned on the waters has split the town of Montrose into two bitter factions. Sher-iff Duguelle, who came into town with the President, took occasion to "soak" H. L. Daniels, the superintendent of the eastern section of the tunnels. Daniels fell as though struck by a blackjack and half a dozen of his friends jumped in to wipe up the boards with the sheriff. Duguelle pulled his gun and would have sent a few bullets whizzing about the ears of the crowd and incidentally in the direction of Mr. Taft, had not the hor-"What's all this about?" demanded Mr. Tart, his beaming smile changing to a worried look. "Nothing but a little row, Mr. President," explained the local committeemen and they thereupon here availabing details of

thereupon began explaining details of the engineering work to distract his attention from the unpleasantness. As soon as the crowd returned from the tunnel to the town the partisans of the combat proceeded to "liquor up" the combat proceeded to "liquor up" from private stores. Strenuous efforts to keep peace managed to prevent any serious outbreak until the President left town at 10 o'clock but after he got safely away it was proposed that the trouble lid be lifted. The ancient Gentile Mormon fight that has been going on for so many years in Salt Lake will break out afresh as soon as the President gets through. According to present arrangements, Senator Smoot will be the "whole thing" while Mr. Taft is in the city.

The Senator will have the President as his guest during his stay and wherever he goes the Mormon apostlestatesman will act as his guide. This plan is not at all to the liking of the

Gentiles of Salt Lake and they hav made strenuous efforts to/have program so changed that Smoot play a less conspicuous part in the proceedings. This effort has failed up to date for the President has a high personal regard for Smoot and asserts that the arrangement which favors the Senator is personally satisfactory as far as he is concerned. The west is warming up to Mr. Taft. Just as soon as he began promising his good offices to advance the irrigation cause sunny warmth and he is to-day adiressing crowds of cheering friends at

every stop.

Back in Nebraska and Minnesota where he discussed the tariff and railroads and at Denver where he talked on the income tax and corporations, the people went to see him out of curiosity alone and nearly froze his ears with the coldness of their greetings. He will probably continue to discuss irrigation unti after his speech at Spokane, where he is to make his principal address on conservation.

The interest the President feels in the trip may be gauged by the fact that up to last night he had made fifty speeches to as many different au-diences in the eight days he has been on his journey.

The several thousand homesteaders who hope to benefit from the water turned through the new Gunnison Tunnel that the President formally opened to-day are doomed to meet with an ugly shock when they pay for the land. Instead of paying \$35 an acre for the new irrigated land the Interior Department has decided to charge them \$50. Boomers in the real estate business out here and the imigration agencies which have been boosting Uncompah Gree Valley prop-erty have been advertising the land \$15 cheaper. The difference between \$35 and \$50 on 50,000 acres, the area involved, will amount up to \$2,100,000 Secretary Ballinger is authority for the statement that \$50 will be the
